

***2017
Annual
Report***

Thank you for Helping us Help Critters!

Message from our Founder

Happy New Year to all of our Friends at the Southwest Wildlife Foundation!

2017 has been a very busy year. More than 150 wildlife rescues and an equal number of wildlife educational programs. We've completed the Information Destination Facility at the Cedar Canyon Nature Park and we are now looking forward to future development.

2018 looks like it will also be a very busy and important year for the Wildlife Foundation and for me personally. February 18th will be Susan's and my 40th wedding anniversary! It's still hard for me to believe that such a beautiful, kind and wonderful young lady would have not only married me, but stayed with me for the past 40 years. She is truly my best friend and the love of my life.

The month of April will be my 50th anniversary for wildlife rescue. A lifetime of caring for the sick, injured and orphaned wildlife that call Utah, and the western United States home.

I need to send out a special thanks to everyone that has helped us on the development of the Information Destination facility. More than 100 volunteers who have given up their time and supported us financially. We couldn't have done it without you!

Again, special thanks to the George S. and Dolores Doré Eccles Foundation, Rocky Mountain Power, Findlay Subaru of St. George and Subaru of America, Cedar City Corporation, Utah State Recreational Trails Program, The Home Depot, Gilbert Construction, TriMetals and Iron Mountain for their financial and material support for our projects, but most of all I would like to thank you, the friends of the Southwest Wildlife Foundation, for all of your letters and emails of encouragement, to everyone who has sent in a donation, a dollar, five dollars, 10 dollars or more, everyone who has gone to Amazon Smile and purchased something from our wish list and had it sent to the SWF. You are truly our Angels that allows the SWF to continue caring for our sick, injured and orphaned wild friends. I will always be grateful for your kindness.

Sincerely,
Martin Tyner, Founder & CEO

Thank you!

"This is one of the most amazing and inspiring videos I have ever seen. My many thanks to you and your wife for doing such an exceptional job taking care of this beautiful creature. It touched my heart deeply." - Brenda

"So amazing! Such a gorgeous and majestic bird! I'm so grateful for people like you who can take care and rehabilitate these majestic birds." - Beth

"I believe this is the first time I've seen a Bald Eagle being hand held the way the guy was holding it! It showed how huge the talons actually are; in comparison to the man's hands which were about the same size! Amazingly awesome!" - Nancy
